

VoltBridge Infrastructure

Engineering the Future of
Commercial EV Infrastructure

COMPANY PROFILE
2026 EDITION

INDEPENDENT ADVISORY

TURNKEY DELIVERY

LIFECYCLE OPERATIONS

Letter from the Founders

Every infrastructure project begins with a decision.

Yet for most commercial property owners, the path to EV readiness is complex. Manufacturers, electrical contractors, civil teams, software providers, approvals and long-term operations—too many moving parts, too many handoffs, and no single point of accountability.

We believe there is a better way.

VoltBridge Infrastructure was founded to become the independent partner that takes complete ownership of the EV infrastructure journey—from the first assessment to lifelong operations.

We combine engineering rigour with commercial understanding to design infrastructure that is right for today and ready for tomorrow.

Our ambition is simple:

Build infrastructure that lasts.

We are excited to partner with forward-thinking property owners and hospitality leaders who are shaping the future of mobility in India.

Let's build it—together.

“

Our ambition is not simply to install EV chargers.

It is to help build the next generation of intelligent, future-ready commercial infrastructure across India.

OUR PROMISE

Clarity

We simplify complexity and bring clarity to every decision.

Integrity

We are independent, transparent and commit only to what is right.

Accountability

One partner.
One plan. Complete ownership.

Future Ready

We design infrastructure that is scalable, adaptable and future-ready.

WHY VOLTBRIDGE

One Partner. Every Step. Complete Accountability.

We simplify the entire EV infrastructure journey for property owners by taking complete ownership from assessment to long-term operations.

- 
SINGLE POINT OF CONTACT
 One partner. One team. One accountability through the entire lifecycle.
- 
RISK MITIGATION
 We identify risks early and manage them proactively across all disciplines.
- 
COST & TIME OPTIMIZATION
 Integrated planning and coordination ensures faster delivery and better cost control.
- 
FUTURE-READY INFRASTRUCTURE
 Scalable, adaptable and designed for tomorrow's needs, not just today's.

THE VOLTBRIDGE JOURNEY

A structured and transparent process designed to deliver high-performance EV infrastructure.

OUR COMMITMENT

We don't just deliver infrastructure.
We stay accountable for its performance.

OUR PROMISE TO YOU

Engineering Excellence. Commercial Understanding. Long-Term Partnership.

We combine deep engineering expertise with a strong understanding of hospitality operations to deliver infrastructure that works—for your business and your guests.

- 
100%

 Support & Partnership

Your infrastructure. Your investment.
Our responsibility.

THE INDUSTRY SHIFT

Why Hospitality Needs EV Infrastructure

EV adoption in India is accelerating. For hospitality and commercial properties, EV infrastructure is no longer a differentiator—it is becoming a necessity.

RAPID EV ADOPTION

India is targeting **30% EV sales by 2030**.
The transition has already begun.

CHANGING GUEST EXPECTATIONS

Today's travellers **expect charging options** wherever they go.

DESTINATION CHARGING IS THE FUTURE

Hotels and commercial properties are becoming the **preferred charging destinations**.

STAY AHEAD. STAY RELEVANT.

Future-ready infrastructure enhances **brand value**, **guest experience** and long-term asset value.

Infrastructure built today
determines guest experience
tomorrow.

THE NUMBERS TELL THE STORY

10M+

EVs projected on Indian roads by 2030*

6X

Growth expected in public charging demand by 2030*

70%

Travellers consider EV charging when choosing accommodation*

₹3.5L Cr+

Estimated investment opportunity in EV charging infrastructure by 2030*

Lower

Carbon footprint and higher sustainability impact for future-ready properties

*Source: NITI Aayog, BEE, Global EV Outlook 2024, Industry Reports

The Shift is Inevitable.

The real question is not if you should invest in EV infrastructure, but **how soon**.

GUEST EXPERIENCE

Deliver seamless charging and elevate every stay.

BUSINESS GROWTH

Unlock new revenue streams and increase property footfall.

FUTURE PROOFING

Prepare your property for tomorrow's mobility today.

PLANNED • DEPLOYED • MANAGED

voltbridgeinfra.com

OUR SERVICES

End-to-End EV Infrastructure Solutions for Commercial Properties

VoltBridge Infrastructure offers a complete suite of services to help hospitality and commercial properties plan, implement and operate EV charging infrastructure with confidence.

ONE PARTNER. EVERY SERVICE.

From strategy to support, we are with you at every step.

WHAT WE DO

01 EV OPPORTUNITY ASSESSMENT

We assess your property's EV readiness and build a data-driven roadmap.

- Site visit & data collection
- Demand & utilization study
- Load & infrastructure assessment
- ROI & financial analysis
- EV Readiness Score

02 DESIGN & ENGINEERING

Detailed engineering for safe, scalable and efficient infrastructure.

- Electrical design
- Load management plan
- Layout & bay planning
- Civil & structural inputs
- Compliance & standards adherence

03 OEM SELECTION & ADVISORY

Independent, data-driven recommendations to ensure the right investment.

- OEM evaluation
- Technology comparison
- Commercial negotiation support
- Future-proofing advice
- Total Cost of Ownership analysis

04 SUPPLY & DEPLOYMENT

Seamless procurement and execution with full project management.

- Equipment procurement
- Civil & electrical execution
- Installation & integration
- Safety & quality assurance
- Timeline management

05 COMMISSIONING & TESTING

Rigorous testing to ensure safety, compliance and peak performance.

- Functional testing
- Safety compliance
- OCPP & software testing
- Handover & training
- Documentation

06 OPERATIONS & SUPPORT

Reliable operations and proactive support for long-term performance.

- Remote monitoring
- Preventive maintenance
- 24/7 support
- Performance reports
- Expansion planning

WHAT SETS US APART

Why Property Owners Choose VoltBridge

We focus on what matters most—your property, your guests and your long-term goals.

ENGINEERING FIRST

We are engineering-led, safety-focused and process-driven.

INDEPENDENT ADVICE

We are OEM neutral and recommend what is right for you, not what sells.

SINGLE ACCOUNTABILITY

One partner. One team. One point of contact throughout the lifecycle.

FUTURE READY

Scalable solutions that grow with your demand and technology.

COMMERCIAL FOCUS

We understand hospitality operations and deliver real business value.

LIFECYCLE PARTNER

We stay with you for the long run—beyond installation.

OUR SERVICES

End-to-End EV Infrastructure Solutions for Commercial Properties

VoltBridge Infrastructure offers a complete suite of services to help hospitality and commercial properties plan, implement and operate EV charging infrastructure with confidence.

ONE PARTNER. EVERY SERVICE.

We understand hospitality operations and deliver real business value.

LIFECYCLE PARTNER

We stay with you for the long run—beyond installation.

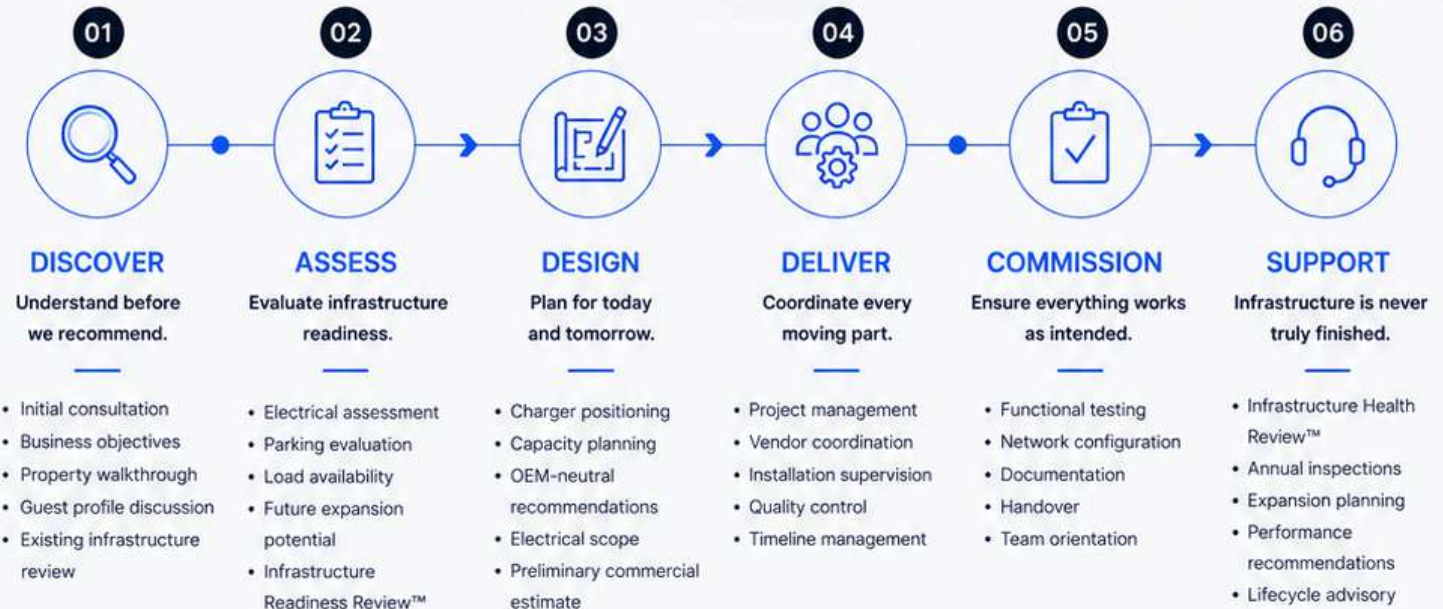

OUR PROVEN METHODOLOGY

THE VOLTBRIDGE METHOD™

A STRUCTURED PROCESS. CONSISTENT OUTCOMES.

Great infrastructure is the result of better planning, disciplined execution and long-term partnership.

Our proprietary methodology ensures every project is approached with engineering rigour, commercial clarity and complete accountability—from the first assessment to lifelong operations.

WHY A STRUCTURED METHOD MATTERS

Commercial EV infrastructure projects involve multiple disciplines, stakeholders and long-term decisions. A structured approach reduces uncertainty, ensures regulatory compliance, optimizes investment and delivers a seamless owner experience.

REDUCED RISK
Identify challenges before they become problems.

OPTIMIZED INVESTMENT
Right-sizing infrastructure ensures better ROI and lower TCO.

QUALITY & SAFETY
Engineering-led execution ensures reliability and safety.

SINGLE POINT OF ACCOUNTABILITY
One partner. One team. Complete ownership.

FUTURE READY BY DESIGN
Scalable infrastructure that grows with you.

The VoltBridge Method™ is applied consistently across every engagement, ensuring every recommendation is built on **engineering discipline**, **independent thinking** and **long-term value**—not short-term product sales.

www.voltbridgeinfra.com

OUR SERVICES

EV OPPORTUNITY ASSESSMENT™

Clarity before investment.
Confidence before commitment.

Our EV Opportunity Assessment™ helps property owners understand the real potential, requirements and return on investment for EV charging infrastructure.

We combine engineering analysis, operational insights and commercial evaluation to deliver a clear, data-driven roadmap tailored to your property.

WHAT YOU GET

A comprehensive assessment that gives you clarity on viability, investment and execution.

DATA-DRIVEN INSIGHTS

Fact-based evaluation of infrastructure readiness and opportunity size.

FINANCIAL CLARITY

Estimated CAPEX, revenue potential, ROI and payback analysis.

RISK & COMPLIANCE CHECK

Regulatory, safety and operational considerations evaluated.

CUSTOM ROADMAP

A phased plan tailored to your property's goals and future expansion.

OUR ASSESSMENT PROCESS

Make informed decisions.
Invest with confidence.

REDUCE UNCERTAINTY

Understand real viability before you invest.

OPTIMIZE INVESTMENT

Right-sizing infrastructure ensures better ROI.

MITIGATE RISK

Identify technical, operational and regulatory risks early.

ENHANCE GUEST EXPERIENCE

Reliable charging infrastructure drives satisfaction and loyalty.

The EV Opportunity Assessment™ is the first step toward building **future-ready infrastructure** that delivers **value**—for your business, your guests and the planet.

www.voltbridgeinfra.com

PLANNED • DEPLOYED • MANAGED

OUR SERVICES

THE VOLTBRIDGE VALUE STACK™

INTEGRATED. INDEPENDENT. IMPACTFUL.

We deliver more than infrastructure.
We deliver complete, long-term value.

The VoltBridge Value Stack™ represents our integrated approach—combining engineering expertise, independent advice and lifecycle support to create measurable impact for your business.

A COMPLETE APPROACH ACROSS THE FULL LIFECYCLE

VALUE THAT CREATES IMPACT

Our integrated approach ensures every investment delivers measurable, long-term results.

OPTIMIZED ROI

Right investment, right technology, right time.

LOWER RISK

Identify challenges early and mitigate risks proactively.

HIGHER RELIABILITY

Engineering-led design and quality execution.

ENHANCED EXPERIENCE

Better uptime and availability for your guests and teams.

FUTURE READY

Scalable infrastructure that grows with your business.

The VoltBridge Value Stack™ ensures every layer is aligned, every decision is informed and every outcome creates **long-term value**.

www.voltbridgeinfra.com

PLANNED • DEPLOYED • MANAGED

OUR SERVICES

INDUSTRIES WE SERVE

**Powering Every Destination.
Enabling Every Journey.**

VoltBridge Infrastructure partners with a wide range of commercial and public sector clients to deliver future-ready EV infrastructure that enhances value, guest experience and operational efficiency.

TAILORED SOLUTIONS. MEASURABLE IMPACT.

HOSPITALITY

- Enhance guest experience
- Increase property value
- Attract EV-ready travelers

COMMERCIAL OFFICES

- Support employee mobility
- Enable workplace charging
- Strengthen sustainability goals

MALLS & RETAIL CENTERS

- Drive longer dwell time
- Increase footfall and sales
- Offer convenient charging

RESORTS & DESTINATIONS

- Position as EV-friendly destinations
- Enable intercity travel confidence
- Future-proof remote locations

HEALTHCARE FACILITIES

- Support patients and visitors
- Ensure reliable infrastructure
- Plan for future demand

EDUCATIONAL CAMPUSES

- Enable campus sustainability
- Support students and faculty
- Prepare for future EV adoption

INDUSTRIAL PARKS

- Fleet and employee charging
- Support green logistics
- Enhance ESG performance

PUBLIC SECTOR & MUNICIPALITIES

- Promote sustainable mobility
- Support public infrastructure
- Build future-ready cities

ONE APPROACH. MANY IMPACTS.

Every industry has unique needs. Our approach ensures each solution is engineered for long-term value.

CUSTOMIZED STRATEGIES

Solutions tailored to your industry and operational goals.

INDEPENDENT ADVICE

OEM-neutral recommendations for the right fit.

ENGINEERING EXCELLENCE

Safe, reliable and scalable infrastructure that performs.

LONG-TERM PARTNERSHIP

Lifecycle support that grows with your business.

From hospitality to industrial parks, we deliver EV infrastructure solutions that are **practical today** and **future-ready** for tomorrow.

OUR SERVICES

CHARGING SOLUTIONS BUILT FOR EVERY NEED

The Right Charger. The Right Location.
The Right Experience.

VoltBridge Infrastructure offers a complete range of AC and DC charging solutions designed to meet the diverse needs of commercial properties, fleets and public destinations.

We help you choose the optimal mix of technology, capacity and connectivity to deliver reliable, efficient and future-ready charging infrastructure.

OUR CHARGING SOLUTIONS

 AC HOME & DESTINATION CHARGERS • 3.3 kW – 22 kW • Ideal for hotels, offices & residences • Compact, safe & user-friendly • OCPP enabled & smart 	 AC COMMERCIAL CHARGERS • 11 kW – 22 kW • Perfect for workplaces, malls & public parking • Dual socket options • Load management capabilities 	 DC FAST CHARGERS • 30 kW – 60 kW • Ideal for destination & highway locations • CCS2 connectivity • High efficiency & rapid charging performance 	 DC ULTRA FAST CHARGERS • 120 kW – 240 kW • Designed for high-traffic public & fleet hubs • CCS2 / CHAdeMO connectors • Built for uptime & durability 	 SOFTWARE & CONNECTIVITY • OCPP 1.6J / 2.0.1 • Real-time monitoring & analytics • Remote diagnostics • RFID, QR, App & payment integration 
--	---	--	---	--

OUR CAPABILITIES

 OEM NEUTRAL APPROACH We recommend what's right, not what we sell.	 MULTI-OEM PARTNERSHIPS Access to leading global and Indian charger brands.	 CUSTOMIZED SOLUTIONS Right technology mix based on your usage and location.	 TURNKEY IMPLEMENTATION From supply to installation and commissioning.	 LIFECYCLE SUPPORT Ongoing support to ensure performance and reliability.
---	--	---	---	--

OUR COMMITMENT

We don't just provide chargers.

We deliver complete charging experiences.

Reliable. Smart. Future-ready.

Choosing the **right charging solution** today ensures a **better experience** for your guests, your operations and the planet tomorrow.

www.voltbridgeinfra.com

OUR SERVICES

TURNKEY IMPLEMENTATION SEAMLESS. RELIABLE. ON TIME.

From Plan to Plug. We Take Care of Everything.

VoltBridge Infrastructure delivers end-to-end turnkey solutions that ensure a smooth, transparent and hassle-free experience—from site readiness to commissioning.

Our integrated approach ensures every project is completed on time, within budget and to the highest standards.

OUR TURNKEY IMPLEMENTATION PROCESS

WHAT WE MANAGE

- | | |
|---|--|
|  Site assessment & feasibility |  Software setup & integration |
|  Electrical infrastructure & load management |  Compliance, testing & certification |
|  Civil works & structural preparation |  Documentation & handover |
|  Charger supply & installation |  Training & post-installation support |

KEY DELIVERABLES

-  Fully functional EV charging infrastructure
-  Safety certified & compliance ready
-  Optimized performance & energy efficiency
-  Minimal downtime & disruption
-  Complete documentation & warranties
-  Long-term operational support

ON TIME

Structured execution to meet your timelines.

ON BUDGET

Transparent costing with no hidden surprises.

HIGH QUALITY

Best-in-class equipment and engineering standards.

ONE POINT OF CONTACT

Single partner for the entire implementation journey.

FUTURE READY

Scalable solutions built for tomorrow.

We don't just install chargers. We deliver **complete, future-ready** solutions that power your goals and your growth.

PLANNED • DEPLOYED • MANAGED

OUR SERVICES

OPERATIONS & LIFECYCLE SUPPORT BUILT TO PERFORM. BUILT TO LAST.

Reliable Today. Resilient Tomorrow.

Our commitment doesn't end at commissioning. VoltBridge Infrastructure provides proactive operations and lifecycle support to ensure maximum uptime, optimal performance and long-term value.

We leverage technology, expertise and a strong support network to keep your charging infrastructure running seamlessly—24/7.

COMPREHENSIVE LIFECYCLE SUPPORT

REMOTE MONITORING & MANAGEMENT

- 24/7 real-time monitoring
- Fault detection & alerts
- Performance dashboards
- Utilization & energy insights

PREVENTIVE MAINTENANCE

- Scheduled inspections
- Preventive servicing
- Component health checks
- Minimize downtime

24/7 SUPPORT & HELP DESK

- Multi-channel support
- Rapid issue resolution
- Expert technical assistance
- SLA-driven response

PERFORMANCE OPTIMIZATION

- Charger performance tuning
- Load balancing support
- Energy efficiency advisory
- Software updates

REPORTING & ANALYTICS

- Monthly performance reports
- ROI & utilization analysis
- Energy consumption reports
- Trend & anomaly insights

COMPLIANCE & SAFETY ASSURANCE

- Regulatory compliance
- Safety audits
- Documentation support
- Risk mitigation

VB CONNECT™ – OUR SMART OPERATIONS PLATFORM

OUR TECHNOLOGY & VISION

SMART TECHNOLOGY. STRONG INSIGHTS. BETTER INFRASTRUCTURE.

Data. Intelligence. Uptime.
The Future of EV Infrastructure.

VoltBridge Infrastructure leverages smart technology and digital intelligence to ensure every charger we deploy is efficient, reliable and future-ready.

Our digital platform and proprietary tools give our clients complete visibility, better control and actionable insights—anytime, anywhere.

VB CONNECT™ – OUR DIGITAL OPERATIONS PLATFORM

REAL-TIME MONITORING
Live status, uptime, faults and alerts

SMART ALERTS
Instant notifications for issues and anomalies

PERFORMANCE ANALYTICS
Utilization, energy, downtime and trends

PREDICTIVE MAINTENANCE
AI/ML-driven insights to prevent breakdowns

REPORTS & DASHBOARDS
Custom reports for hotels, fleets and asset owners

ACCESS & CONTROL
Role-based access for secure operations

PROPRIETARY TOOLS. MEASURABLE ADVANTAGE.

INFRASTRUCTURE READINESS SCORE™

Evaluate site readiness across electrical, civil, connectivity and safety parameters.

VOLTBRIDGE HEALTH™

Continuous health monitoring of chargers to ensure peak performance.

ENERGY ANALYTICS

Track energy consumption, costs and savings with actionable insights for better efficiency.

FLEET READINESS ASSESSMENT

Assess charging requirements for EV fleets and plan scalable infrastructure.

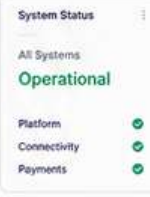

LOAD & ENERGY OPTIMIZATION

Optimize load distribution and recommend energy efficient configurations to reduce costs.

CLOUD CONNECTIVITY & INTEGRATION

Secure cloud platform integrating chargers, payments, alerts and maintenance.

OUR DIGITAL ROADMAP

Q1 – Q2 2026

FOUNDATION

Platform launch with real-time monitoring, alerts and reporting.

Q3 – Q4 2026

INTELLIGENCE

AI-driven analytics, predictive maintenance and energy optimization.

Q1 – Q2 2027

MOBILITY

Mobile app for users, payments, support and seamless control on the go.

Q3 – Q4 2027

INTEGRATION

Deeper integrations with solar, storage, grid and fleet management systems.

2028 & BEYOND

INNOVATION

Advanced AI, autonomous operations and ecosystem expansion.

TECHNOLOGY THAT POWERS RELIABILITY

We combine engineering excellence with digital intelligence to deliver infrastructure that is smart, efficient and built to last.

DATA DRIVEN
Better decisions through real-time data and insights.

PROACTIVE
Predict issues before they impact operations.

TRANSPARENT
Complete visibility across assets and operations.

SCALABLE
Built to grow with your business and future needs.

SECURE
Enterprise-grade security for your data and assets.

Smart technology. Strong partnerships. Future-ready infrastructure.
That's the VoltBridge promise.

PLANNED • DEPLOYED • MANAGED

OUR METHODOLOGY

A PROVEN APPROACH. ENGINEERED RESULTS.

The VoltBridge Method™ From Assessment to Long-term Performance.

Our structured, consultative approach ensures every project is designed right, executed right and performs right for years.

We combine engineering rigour, domain expertise and digital intelligence to deliver future-ready EV charging infrastructure.

THE VOLTBRIDGE METHOD™ – OUR 6 STEP APPROACH

THE VOLTBRIDGE VALUE STACK

WHY VOLTBRIDGE?

TOOLS THAT POWER OUR APPROACH

OUR PROMISE

We follow a disciplined process, use the right tools and stand by your infrastructure—always.

RIGHT SOLUTION
Designed for your unique needs.

RIGHT QUALITY
Built to the highest safety standards.

RIGHT TIME
Delivered on time, every time.

RIGHT PARTNER
A partner you can trust for the long run.

RIGHT IMPACT
Maximize uptime, efficiency and return on investment.

A strong process. Smart tools. The right mindset.
That's how we build infrastructure that **performs today and tomorrow.**

www.voltbridgeinfra.com

OUR PLANNING EXPERTISE

PLAN SMART TODAY. SCALE CONFIDENTLY TOMORROW.

Infrastructure that grows with your business.
Designed for today. Ready for tomorrow.

EV infrastructure needs change over time. We help you plan with clarity, build with confidence and scale without disruption.

Our planning frameworks ensure optimal capacity, power management and future expansion—so your investment delivers long-term value.

FUTURE GROWTH PATH – BUILD ON YOUR TERMS

OUR PLANNING CAPABILITIES

PLANNING OUTPUTS YOU RECEIVE

- ✓ Site assessment & technical report
- ✓ Electrical load & power availability summary
- ✓ Future expansion roadmap (3/5/7+ years)
- ✓ Charger configuration & layout plan
- ✓ Cost estimate & ROI projection
- ✓ Risk analysis & mitigation plan

WHY IT MATTERS

- ✓ Avoid costly rework
- ✓ Optimize upfront investment
- ✓ Ensure operational efficiency
- ✓ Stay ahead of future demand
- ✓ Increase property value & guest satisfaction

We don't just plan for today.
We design the infrastructure for the future you envision.

www.voltbridgeinfra.com

OUR ADVISORY EXCELLENCE

INDEPENDENT ADVICE. MAXIMUM VALUE. NO COMPROMISES.

We are OEM-neutral. Solution-focused.
Your long-term partner in EV infrastructure.

Our recommendations are based on what's right for your property—not what benefits any manufacturer.

We evaluate every option objectively to design the most efficient, reliable and future-ready charging ecosystem for your needs.

OUR ADVISORY PRINCIPLES

-  Independent & Unbiased advice
-  Right solution for your unique needs
-  Transparent & honest recommendations
-  Long-term value over short-term gain
-  Single point of accountability

OEM-NEUTRAL. CLIENT-FIRST.

VOLTBRIDGE APPROACH

- ✓ Client-first recommendations
- ✓ Compare multiple options
- ✓ Best fit for long-term performance
- ✓ Transparent pricing & commercial terms
- ✓ Single partner for end-to-end support

VS

MANUFACTURER SALES TEAM

- ✗ Product-first approach
- ✗ Sell their own products
- ✗ Limited visibility of alternatives
- ✗ Commercials may not be fully transparent
- ✗ Support limited to their product only

VS

TRADITIONAL INSTALLER

- ✗ Focus on execution only
- ✗ No solution advisory
- ✗ Limited engineering depth
- ✗ Fragmented responsibility
- ✗ No long-term performance accountability

OUR ADVISORY CAPABILITIES

NEEDS ASSESSMENT & DISCOVERY

Understand your business objectives, site conditions and future goals.

SOLUTION EVALUATION & COMPARISON

Evaluate multiple technologies, OEMs and configurations objectively.

COMMERCIAL ANALYSIS & ROI MODELLING

Transparent cost modelling, TCO analysis and ROI projections.

SCALABLE DESIGN & PLANNING

Engineering designs that scale with your demand and infrastructure.

RISK & COMPLIANCE ADVISORY

Ensure safety, standards compliance and risk mitigation.

LIFECYCLE PARTNERSHIP & SUPPORT

From planning to performance optimization—we stay with you.

WHAT YOU GET WITH VOLTBRIDGE

Right solution for your property

Optimized capex & operating costs

Future-ready & scalable infrastructure

Reduced risks & compliance assurance

Single accountable partner

Long-term value maximization

THE VOLTBRIDGE VALUE PROMISE

We combine engineering excellence, market intelligence and unbiased advice to deliver infrastructure that performs today and adds value tomorrow.

CLIENT FIRST
Your goals drive our solutions.

TOTAL TRANSPARENCY
Clear information. Clear decisions.

ENGINEERING EXCELLENCE
Safe, reliable and efficient designs.

LONG-TERM FOCUS
We plan beyond today—for your future.

PARTNERSHIP MINDSET
Your success is our success.

No bias. No shortcuts. Just the right infrastructure for your property and the confidence that comes with expert advice.

www.voltbridgeinfra.com

PLANNED • DEPLOYED • MANAGED

OUR PARTNERSHIPS

STRONG PARTNERS. STRONGER SOLUTIONS.

We collaborate with leading OEMs, technology providers and service partners to deliver best-in-class EV infrastructure.

Our partnerships ensure access to proven technology, reliable products and expert support—so our clients always get the right solution, installed and maintained to the highest standards.

OUR OEM & TECHNOLOGY PARTNERS

CHARGER OEM PARTNERS

ENERGY & ELECTRICAL PARTNERS

CONNECTIVITY & SOFTWARE PARTNERS

PAYMENT & BILLING PARTNERS

SERVICE & MAINTENANCE PARTNERS

HOW OUR COLLABORATIONS BENEFIT YOU

BEST-IN-CLASS PRODUCTS
Access to reliable, tested and future-ready solutions.

COMPETITIVE PRICING
Better commercial terms through partner networks.

FASTER DEPLOYMENT
Streamlined supply, installation and commissioning.

DEPENDABLE SUPPORT
Priority support and faster issue resolution.

LONG-TERM RELIABILITY
Proven technology with sustained performance.

CONTINUOUS INNOVATION
Partnering for smarter, cleaner EV solutions.

OUR COMMITMENT TO OUR PARTNERS

MUTUAL GROWTH
We grow together by creating long-term, sustainable value.

TRANSPARENT RELATIONSHIPS
Open communication, ethical practices and complete transparency.

PERFORMANCE FOCUS
We focus on outcomes, quality and customer satisfaction.

KNOWLEDGE SHARING
Continuous learning and skill development with our partners.

INNOVATION TOGETHER
Collaborating on new ideas and technologies for the future.

OUR PARTNER ENGAGEMENT PROCESS

01 IDENTIFY & EVALUATE
We carefully evaluate partners based on quality, reliability and capabilities.

02 ALIGN & COLLABORATE
Align goals, define roles and create a shared success plan.

03 EXECUTE TOGETHER
Seamless execution with clear processes and quality control.

04 REVIEW & IMPROVE
Regular reviews, feedback and continuous improvement.

05 GROW & INNOVATE
Drive innovation together and expand our impact.

Great infrastructure is built through great partnerships.
Together, we deliver solutions that power a **cleaner, smarter tomorrow.**

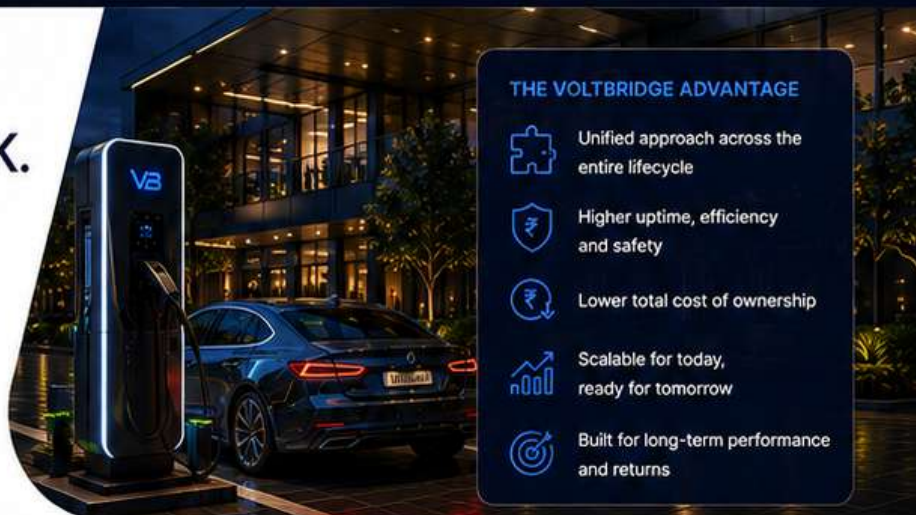

www.voltbridgeinfra.com

OUR VALUE DIFFERENTIATOR

A COMPLETE VALUE STACK. END-TO-END IMPACT.

VoltBridge Value Stack™ is our integrated approach to EV infrastructure—designed to deliver maximum value across the entire asset lifecycle.

From strategy to support, every layer is engineered to create reliable, efficient and future-ready infrastructure that drives long-term returns.

THE VOLTBRIDGE ADVANTAGE

- Unified approach across the entire lifecycle
- Higher uptime, efficiency and safety
- Lower total cost of ownership
- Scalable for today, ready for tomorrow
- Built for long-term performance and returns

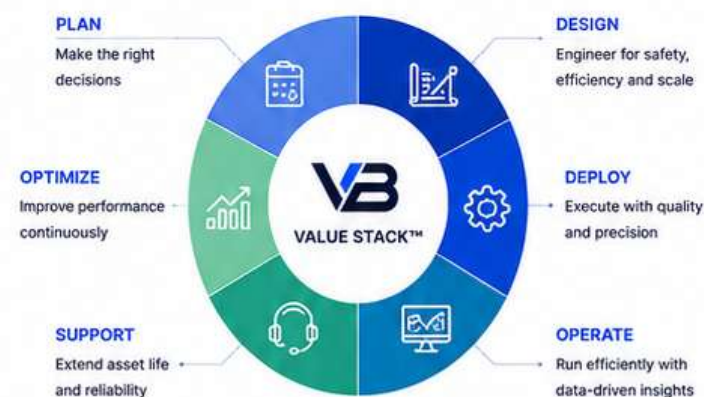

THE VOLTBRIDGE VALUE STACK™

WHAT WE DELIVER AT EVERY LAYER

COVERING THE COMPLETE ASSET LIFECYCLE

THE OUTCOMES YOU ACHIEVE

HIGHER UPTIME Reliable infrastructure that stays operational.	Better user experience and trust
LOWER TCO Optimized capex, opex and maintenance.	Maximum return on investment
ENHANCED SAFETY Compliant, secure and risk-mitigated systems.	Peace of mind for you and your guests
FUTURE READY Scalable, adaptable and technology-forward.	Ready for tomorrow's EV ecosystem
STRONGER BUSINESS CASE Data-backed outcomes and measurable value.	Better decision making and stakeholder confidence

OUR COMMITMENT
AT EVERY LAYER

We are committed to delivering infrastructure that is safe, efficient, reliable and future-ready—at every step of the journey.

Engineered with Care

Built for Performance

Managed for Excellence

Supported for Life

Our Value Stack is more than a framework—it's the foundation of everything we build for you.

www.voltbridgeinfra.com

OUR EXPERTISE

ENGINEERING EXCELLENCE. EVERY CONNECTION.

EV infrastructure is only as good as the engineering behind it. Our technical expertise ensures safe, reliable and future-ready installations that stand the test of time.

From electrical design to energy management, every solution is engineered with precision, built to standards and delivered with accountability.

TECHNICAL EXCELLENCE

-  Engineering-led approach
-  Safety & compliance at the core
-  Quality installation & materials
-  Load & energy optimization
-  Future-ready & scalable designs
-  Continuous improvement mindset

OUR CORE ENGINEERING CAPABILITIES

 ELECTRICAL DESIGN Load assessment, single line diagrams, protection design and optimal power distribution.	 SAFETY & COMPLIANCE Adherence to BIS, IS, IEC and CEA standards with mandatory safety protections.	 LOAD & ENERGY MANAGEMENT Smart load balancing, demand management and energy optimization for maximum efficiency.	 INSTALLATION EXCELLENCE Professional installation with structured processes, testing and quality validation.	 MONITORING & DIAGNOSTICS Real-time monitoring, remote diagnostics and predictive maintenance insights.	 SCALABILITY & FUTURE PROOFING Infrastructure designed to scale with your needs and adapt to future technologies.
--	--	--	--	--	--

ENGINEERING STANDARDS WE FOLLOW

 SAFETY FIRST People, property and equipment safety above all.	 QUALITY ASSURED Best-in-class materials and proven practices.	 COMPLIANCE DRIVEN 100% adherence to national & international standards.	 DATA BACKED Decisions driven by data, analysis and engineering logic.	 CONTINUOUS IMPROVEMENT Learning, upgrading and optimizing at every step.
---	---	---	---	--

THE VOLTBRIDGE SUPPORT PROMISE

We protect your uptime.

We respond with urgency.

We resolve with precision.

We partner for the long run.

We help you grow, always.

You build your business.
We'll make sure your chargers—and your confidence—are always fully charged.

www.voltbridgeinfra.com

OUR CREDIBILITY

BUILT ON TRUST. DRIVEN BY INTEGRITY.

Credibility is earned. We earn it through transparency, accountability, engineering excellence and a long-term commitment to our partners.

Even as a young company, our systems, processes and principles are built to the highest standards—so our partners can move forward with complete confidence.

OUR PROPRIETARY FRAMEWORKS

VOLTBRIDGE METHOD™

Our end-to-end methodology that ensures the right solution is designed, built and managed for you.

INFRASTRUCTURE HEALTH™

A structured assessment framework to evaluate safety, performance, reliability and future readiness.

VALUE STACK™

A holistic approach that maximizes uptime, optimizes costs and delivers long-term value across the lifecycle.

PERFORMANCE ASSURANCE™

Continuous monitoring, data insights and proactive measures to ensure optimal performance.

FUTURE READY™

Planning today for scalable, sustainable and technology-ready infrastructure tomorrow.

OUR COMMITMENT TO STANDARDS

WE FOLLOW

- ✓ BIS Standards
- ✓ IEC Standards
- ✓ CFA Guidelines
- ✓ Central Electricity Authority (CEA) Guidelines
- ✓ ISO 9001 Quality Management Principles
- ✓ ISO 45001 Occupational Health & Safety Principles
- ✓ ISO 14001 Environmental Management Principles

OUR PARTNERSHIP APPROACH

- ✓ We collaborate with certified OEMs, technology leaders and service partners.
- ✓ We choose partners who share our commitment to quality and integrity.
- ✓ Together we deliver safe, reliable and future-ready solutions.

RISK MANAGEMENT & COMPLIANCE

RISK ASSESSMENT

We identify and mitigate risks across electrical, operational, environmental and commercial dimensions.

COMPLIANCE FIRST

All our solutions are designed to meet applicable laws, regulations and industry best practices.

DATA SECURITY

We ensure data privacy, secure access and protection of system information at all times.

ACCOUNTABILITY

Clear roles, responsibilities and escalation protocols for complete accountability.

OUR PRINCIPLES

INDEPENDENT

We are independent and OEM-neutral. Your interest comes first.

TRANSPARENT

Clear communication, honest recommendations and transparent commercials.

RESPONSIBLE

Safety, sustainability and compliance are at the core of every decision.

PARTNER-FIRST

We build relationships that last beyond projects.

EXCELLENCE

We are committed to continuous improvement and raising the bar.

GOVERNANCE & ETHICS

Strong governance structure with defined policies and processes.

Zero tolerance for corruption, conflict of interest and unethical practices.

Vendor & partner code of conduct ensures ethical business at all levels.

Whistleblower mechanism for reporting concerns confidentially.

Trust is not claimed.
It is built—one decision, one action, one project at a time.
At VoltBridge, that is how we build every partnership.

Your infrastructure.
Our responsibility.
Your trust.
Our promise.

www.voltbridgeinfra.com

THANK YOU FOR YOUR TIME.

We appreciate the opportunity to present **VoltBridge Infrastructure**.

We look forward to building a powerful and lasting partnership.

OUR MISSION

To make reliable EV charging infrastructure accessible, intelligent and future-ready for everyone.

OUR VISION

To be the most trusted partner in building a sustainable and connected EV ecosystem across India.

Let's Build the Future. Together.

We are excited to collaborate with you and create solutions that drive value, impact and progress.

EXPERT GUIDANCE

From planning to execution, we are with you at every step.

RELIABLE SOLUTIONS

Safe, efficient and future-ready charging infrastructure.

LONG-TERM VALUE

Maximizing performance, optimizing ROI.
